**2026** • WORLD CONGRESS OF  
CLINICAL ANATOMISTS •  
*Connecting Anatomists, Inspiring Generations*

## Pre-Conference Workshop Proposal

For SOCACON 2026 – World Congress of Clinical Anatomists  
14th International Conference of the Society of Clinical Anatomists  
Hosted at NIMS University, Rajasthan, Jaipur

### 1. Title of the Workshop

(Provide a clear, concise, and informative title)

### 2. Theme / Focus Area

(Briefly describe the theme of the workshop, e.g., clinical anatomy education, surgical anatomy techniques, imaging anatomy, cadaveric dissection skills, innovations in teaching, etc.)

### 3. Objectives of the Workshop

- To provide participants with...
- To enhance skills/knowledge in...
- To create awareness about...
- To promote collaboration and exchange of expertise in...

### 4. Target Audience

(Who will benefit most? – Undergraduate/Postgraduate students, clinicians, surgeons, anatomists, researchers, educators, etc.)

### 5. Duration & Schedule

- Date: (Proposed date, usually a day before the main conference)
- Time: (Specify duration, e.g., 3–4 hours, half-day, or full-day)

- Venue: (Specify – e.g., Anatomy Dissection Hall / Skills Lab / Seminar Hall at NIMS University)

## 6. Proposed Resource Faculty / Conveners

(List names, designations, and affiliations of proposed experts, preferably with short credentials)

## 7. Format & Methodology

(Describe how the workshop will be conducted: Hands-on training, live demonstrations, cadaveric dissection, imaging-based learning, case discussions, group activities, simulations, or blended formats.)

## 8. Expected Outcomes

(What skills, knowledge, or competencies participants are expected to gain from this workshop?)

## 9. Maximum Participants & Registration

- Maximum capacity (e.g., 30–50 participants depending on the nature of the workshop)
- Registration process (first come, first served / pre-registration required)
- Fees (if applicable, mention or mark as “included in main conference registration”)

## 10. Logistics & Support Required

(Any special requirements from organizers: cadaveric specimens, imaging equipment, surgical instruments, simulation tools, AV support, IT facilities, etc.)

## 11. Evaluation & Certification

- Feedback forms (to assess workshop effectiveness)
- Certificate of participation (to be provided to attendees)

## 12. Contact Details of Workshop Coordinator

(Name, Designation, Department, Institution, Email, Phone Number)

## Theme

“Integrating Clinical Anatomy  
with Imaging & Artificial Intelligence  
for the Next Generation”
